Instructions

This is the **twelfth** and final weekly quiz.

Keep in mind that the quizzes do not directly contribute to your marks (except through your participation mark). This is so that you can feel free to actually use them to self-assess your progress and see how you are doing. This, of course, doesn't mean that you should ignore them. Indeed, they are a very important way for you to obtain feedback on how you are doing.

Question 6

0 / 1 pts

Match the following definitions to the correct Decision Making Model.

You Answered

This model provides decision makers with the opportunity to contemplate on the things that matter the most in their situation and select the choices that best reflect their standards.

Rational Decision-Making Model

You Answered

This model is less structured and opts for more subjective opinions, it is a sophisticated process in which the decision maker applies their intuition in many ways.

Intuitive Decision-Making Model

You Answered

This model is used when the decision maker has to come up with an original and unique decision for a situation. The success of it depends mainly on the decision maker's personal traits such as his creativity and the contextual situation.

Creative Decision-Making Model

2/4

You Answered

This model incorporates contextual assessment and metal evaluation to come up with the best reaction to a problem. Decision makers consider only one option instead of weighing several choices at a time.

Recognition-Primed Decision Making Model

You Answered

Instead of rigorously seeking the best possible decision, you're just looking for a "good enough" decision.

Bounded rationality decision-making model
